DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 10, 11 and 13 are rejected under 35 U.S.C. 102(a) as being anticipated by Kuo et al for the same reasons as urged in the first office action.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 12 and 14-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kuo et al for the same reasons as urged in the first office action.

Response to Arguments

Applicant's arguments filed 10-2-02 have been fully considered but they are not persuasive. Applicants argue in the 4th full paragraph on page 2 of their remarks that "Kuo does not disclose or suggest in situ annealing" and in the next full paragraph argues that "Kuo teaches away" from heating the substrate. The examiner is not convinced by these arguments since claim 1 of the reference in defines a process which

Art Unit: 1762

encompasses for example claim 10. This claim 1 of the reference does not define a step of removing the device from the sputtering space and annealing in a separate space. Claim 1 of the reference encompasses a process such as that claimed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
